United States Senate
Washington, DC 20510

The Honorable Hakeem Jeffries
House Minority Leader
United States House of Representatives
Washington, DC 20515

The Honorable Mitch McConnell
Senate Minority Leader
United States Senate
Washington, DC 20510

Dear Speaker Johnson, Leader Schumer, Leader McConnell, and Leader Jeffries:

On behalf of all 64 member organizations of the Nursing Community Coalition (NCC), we recognize how important passing a federal budget is to supporting our current and future nurses who are so vital to the health of our nation. As we near the end of the fiscal year, we urge Congress to support **at least \$310.472 million for Title VIII Nursing Workforce Development Programs** (Title VIII of the Public Health Service Act [42 U.S.C. 296 et seq.]) and **at least \$197.693 million for the National Institute of Nursing Research (NINR)**, as outlined in the bipartisan Senate Appropriations Committee passed bill.

The Nursing Community Coalition is a cross section of education, practice, research, and regulation within the nursing profession. Together, the NCC represents Registered Nurses (RNs), Advanced Practice Registered Nurses (APRNs),¹ nurse leaders, boards of nursing, students, faculty, and researchers. As the largest segment of the health care profession,² nursing is involved at every point of care. We recognize that supporting health care in all communities, including in our rural and underserved areas, requires continued investments in nursing. This is especially true as the Bureau of Labor Statistics (BLS) projects the demand for RNs will increase 6% by 2033,³ and the demand for most APRNs is expected to grow by 40%.⁴ With an aging population and increased need for nurses throughout the country, bold investments in our Title VIII Nursing Workforce Development Programs and NINR are critical, not only as we address the current needs of the profession, but as we prepare for the health care needs of tomorrow.

¹ APRNs include certified nurse-midwives (CNMs), certified registered nurse anesthetists (CRNAs), clinical nurse specialists (CNSs), and nurse practitioners (NPs)

As the largest dedicated federal funding for nurses, the Title VIII Programs have bolstered and sustained the nation's diverse nursing pipeline by addressing all aspects of nursing workforce demand. From scholarship and loan repayments, to supporting APRNs and future faculty, each program under Title VIII is unique and plays an essential role in supporting our nursing workforce. Funding for Title VIII Nursing Workforce Development Programs must meet levels reflecting the nursing population they serve, as these programs connect patients with high-quality nursing care in community health centers, hospitals, long-term care facilities, local and state health departments, schools, workplaces, and patients' homes. With more than four and a half million nurses throughout the country,⁵ we strongly urge historic support for all the Title VIII Nursing Workforce Development Programs in FY 2025.

We have also seen the importance of science in the discussion of cures and preparedness. As the only Institute or Center at NIH that directly supports research by our nurse scientists, NINR promotes patient-centered care across the life continuum. The translational research by our nation's nurses and scientists is essential to developing new evidence-based practices to care for all patients. Through increased investments in NINR, they will be able to continue their vital work at the forefront of disease prevention, patient care, and recovery.

Funding for these essential nursing programs continues to be a top priority. As you support America's health, we urge you to invest in our nation's nurses by providing **at least \$310.472 million for Title VIII Nursing Workforce Development Programs** and **at least \$197.693 million for the National Institute of Nursing Research (NINR)** in FY 2025. If our organizations can be of any assistance, or if you have any questions, please contact the Nursing Community Coalition's Executive Director, Rachel Minahan at rstevenson@thenursingcommunity.org.

Sincerely,
