

March 16, 2017

The Honorable Tom Cole
Chairman
Appropriations Subcommittee on Labor,
Health and Human Services, Education, and
Related Agencies
U.S. House of Representatives
Washington, D.C. 20515

The Honorable Rosa DeLauro
Ranking Member
Appropriations Subcommittee on Labor,
Health and Human Services, Education, and
Related Agencies
U.S. House of Representatives
Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro:

The 54 undersigned members of the Nursing Community respectfully request \$244 million for the Health Resources and Services Administration's (HRSA) Nursing Workforce Development programs (authorized under Title VIII of the *Public Health Service Act* [42 U.S.C. 296 et seq.]) and \$160 million for the National Institute of Nursing Research (NINR), one of the 27 Institutes and Centers within the National Institutes of Health (NIH)¹ as you work to complete your FY 2018 appropriations bill.

The Nursing Community is a coalition which includes national professional nursing associations that are the cross section of education, practice, research, and regulation within the profession. These organizations are committed to promoting America's health through the contributions made by the nursing profession. As the largest segment of the healthcare workforce with over four million licensed Registered Nurses (RNs), Advanced Practice Registered Nurses (APRNs), and nursing students, nurses are involved in every point of care and in every community.

For over 50 years, the Title VIII Nursing Workforce Development programs have helped to build the supply and distribution of qualified nurses to meet our nation's healthcare needs. Title VIII programs provide students and practicing nurses exposure to caring for underserved populations. With over 65.9 million individuals living in HRSA-designated primary care Health Professional Shortage Areas, these programs are vital to sustaining and creating access. **The Nursing Community requests \$244 million for HRSA's Nursing Workforce Development programs in FY 2018.**

¹ The Ad Hoc Group for Medical Research requests at least \$2 billion above FY2017 for NIH, in addition to funds included in the *21st Century Cures Act* for targeted initiatives. The request level of \$160 million for NINR denotes the same percentage increase for NIH applied to NINR.

As one of the 27 Institutes and Centers at the NIH, NINR funds research that lays the groundwork for evidence-based nursing practice. NINR's research examines a variety of topics that will help nurses and other health professionals to make informed decisions about patient treatment. Our country must look toward the prevention aspect of health care as the vehicle for saving our system from further financial burden, and the work of NINR embraces this endeavor through research related to care management of patients during illness and recovery, reduction of risks for disease and disability, promotion of healthy lifestyles, enhancement of quality of life for those with chronic illness, and care for individuals at the end of life. **The Nursing Community requests \$160 million for NINR in FY 2018.**

Commitment of resources to the HRSA Nursing Workforce Development programs and to NINR is vital to ensuring a healthy population for our country. We urge you to support our Fiscal Year 2018 requests. Please contact Suzanne Miyamoto, convener of the Nursing Community, at smiyamoto@aacn.nche.edu or 202-463-6930 ext. 247 for any additional assistance.

Sincerely,
