CEN Online Review Course

Up-to-date clinical information and best practices in emergency nursing in a flexible, online format.

WHAT YOU’LL LEARN
ENA’s CEN Online Review course brings you real, certified, practicing emergency nurses who are experts in emergency nursing education to help you prepare for the CEN exam. Their collective expertise represents the best in current, evidence-based practice. You’ll review the most current clinical information and best practices in emergency nursing—patient assessments, various patient presentations, and necessary interventions in emergency care.

WHO SHOULD TAKE THIS COURSE
The course is designed for experienced emergency nurses who have a recommended minimum of two years of ED experience and plan to take the CEN exam, CENs who need to recertify, or emergency nurses who want to improve their score on the CEN exam. Emergency departments seeking Lantern recognition or hospitals seeking Magnet designation will find that a higher percentage of certified nurses will make their application more attractive.
CEN Online Review Course
