

Made for nurses, by nurses

As the population of adults over 65 continues to grow, it is increasingly important for nurses to be equipped to care for older adults in emergency situations. ENA® offers a variety of educational resources to support nurses in learning best practices when providing care for geriatric patients in emergency situations.

Meets the criteria for geriatric ED accreditation.

Bundle and Save!

LEVEL I 2.0

Learn foundational knowledge, skills, and a systematic process needed to effectively guide geriatric patient care and improve outcomes.

MODULE TOPICS:

- Delirium and Sepsis
- Hip Fracture
- Scalp Laceration
- Weakness and Non-specific Complaints
- Heart Failure and End-of-Life Care

FEATURES:

- 1.5 CNE contact hours
- Digital Badging

HIGH-RISK PATIENTS

Explore why high-risk geriatric patients present with vague and atypical symptoms.

MODULE TOPICS:

- Falls
- Abdominal Pain
- Mental Health
- Cardiovascular

FEATURES:

- Case-based modules and patient scenarios
- 2.75 CNE contact hours
- Digital Badging
